

ENERGY SOLUTIONS

Energy Solutions

The Network

Energy Solutions is a cross-national, multi-sectoral and cross-party European Parliamentary network, created to facilitate dialogue between stakeholders and develop a holistic approach to energy regulation by working across the energy system.

The Network aims to support practical and technological solutions to decarbonise the European economy and society.

What unites us?

- **Vision:** achieving climate neutrality in Europe by 2050 through the large-scale deployment of energy efficiency measures and renewable energy sources
- **System approach:** cultivating an open, result-oriented approach to policy that reflects the complex and interlinked nature of decarbonisation, taking into account the full carbon cycle and the entire energy value chains.
- **Solution-based:** putting practical and technological energy solutions at the core of policy and regulatory measures

Key enablers:

- Sector coupling
- Digitalisation
- Sustainable investment

Energy Solutions' Steering Committee members

- Morten Helveg Petersen** (Renew Europe, Denmark)
- Emma Wiesner** (Renew Europe, Sweden)
- Ville Niinisto** (Greens, Finland)
- Miapetra Kumpula-Natri** (S&D, Finland)
- Sean Kelly** (EPP, Ireland)
- Pernille Weiss** (EPP, Denmark)
- Søren Gade** (Renew Europe, Denmark)
- Zdzisław Krasnodebski** (ECR, Poland)
